

DIRECTIONS FOR USE

-  Avoid carbonated alcoholic and non-alcoholic drinks – they dampen the effects of the device. Drink at least 1-1.5 liters of pure drinking water a day to lead the toxins out of your body.
-  Stop or lower your coffee intake.
-  Quit eating «junk foods» (chips etc.) – they may cause indigestion.
-  Carefully read methodological recommendations – some of the programs should not be used while driving.
-  In case of severe health conditions consult your doctor. The device is not a medical instrument and does not substitute a prescribed treatment.
-  For the best results use a complex approach, including the application of all 3 wellness DeVita devices.
-  Special instructions: some of the programs are not recommended to apply during the first trimester of pregnancy and in case of having transplanted organs.

 You will achieve the most efficient results by combining healthy lifestyle with the use of 3 DeVita devices: DeVita AP Base, DeVita Ritm Base and DeVita Energy.

DEVICE IN ACTION

DEVITA RITM BASE

Harmonizes performance of all organs and systems. Special programs are aimed at the function improvement of the circulatory, urogenital, cardiovascular, excretory and other systems of an organism.

Contributes to activity and workability. The device activates blood circulation, normalizes metabolic processes, lifts up your mood, and facilitates a healthy, deep sleep and an easy awakening.

Improves memory and concentration, eliminates eye fatigue. The DeVita Ritm Base programs can be applied in any age; perfect for pupils and students.

Supports muscle tone, recovers after sports activities. The use of DeVita Ritm Base before, during and after the training increases the endurance and efficiency.

HOW IT WORKS

A recovery effect of DeVita Ritm Base is based on the development of scientists R. Voll and A. F. Kramer, who were closely studying electromagnetic emissions of an organism. According to their research, every organ has a healthy frequency of electromagnetic oscillations. The oscillations of weakened and healthy organs are different. Special frequencies of a low range "tune" the body, imposing the oscillation frequency of healthy organs. As a result, the body starts a self-recovery process. The DeVita Ritm Base device has several separate oscillation frequencies for different organs and helps the body to harmonize its work. Base programs are aimed at the solution of the most common health problems. And if necessary, it is possible to set some additional (special) programs, as well.

DeVita Ritm Base maintains natural hormonal balance, improves the organs performance and prevents premature age-related changes.

DeVita Ritm Base — is a household wellness device.

RECOMMENDATIONS FOR USE

DeVita Ritm Base generates weak electromagnetic emissions identical to the emissions of natural organic systems. It is intended for strengthening the body defenses and correcting the natural electromagnetic emissions of biosystems. The principle of the correcting action is based on the extensive frequency work of R. Rife, R. Voll, and F. Morrel.
